Subject Matter and Section Definitions

Statement on Subject Matter - applicable to all sections

The fundamental rule that must be observed at all times and applies to all sections offered in salons. This means that practices such as baiting of subjects with a living creature and removal of birds from nests, for the purpose of obtaining a photograph, are highly unethical, and such photographs are not allowed in any salon. Under no circumstances may a living creature be placed in a situation where it will be killed, injured or stressed for the purpose of obtaining a photograph. Images that show live creatures being fed to captive animals, birds or reptiles are not permitted under any circumstances.

There are also concerns about the use of aerial photography, drones, helicopters, low flying aircraft. These should not cause any interference with other individuals or animals which causes a disturbance in their normal activity or disrupt the way any individuals or animals interact with their environment.

The content of images must comply with the General Conditions and with the Division and Section definitions listed in these conditions. Images that - in the sole opinion of the judges or the salon Organizers - do not comply, will be disqualified so the entrant may be aware of the problem when considering entry into other salons.

FIAP/FIP DEFINITION OF MONOCHROME:

A Black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome Work with the various shades of grey. A black and white work toned entirely in a single colour will remain a Monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial

toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

FIAP/FIP DEFINITION OF COLOUR PHOTOGRAPHY:

Entries must originate as photographs (image captured of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. Pictures on any subject including creative or experimental images can be submitted.

Use of Computer-generated graphics is totally restricted except in Creative thematic section. All element of the image must have been shot by the author. No part of the image should have been taken from Net or other person's image. Use of some filters available on net is permissible. Same images either colour or mono in two different sections of the same Salon will result in disqualification for both the images.

FIAP/FIP DEFINITION OF NATURE PHOTOGRAPHY:

Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology* and archaeology*, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. (Suggested*: An example will be helpful to the New Jury). The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

1. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
2. Scientific bands, scientific tags or radio collars on wild animals are permissible.
3. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible.
4. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
5. Complete conversion to grey scale Monochrome is allowed but without partial or complete toning.
6. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Selective darkening of background is prohibited. Techniques like panning, slow shutter speed or in exposure zooming are part of your creativity. Use of filters like Polarizers and NDs are ok.
7. Drone Photography in the National Parks of India is illegal except with prior written permission from the concerned authorities.

8. Welfare of the subject is extremely important. Use of live bait is totally prohibited. Relocated nest is a big NO and jury members should not award Nest images. Images entered in Nature section meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

FIAP Definition for “World in Focus”

Just as with travel and tourism pictures, this section encompasses the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc. A “WORLD IN FOCUS” image expresses the spirit of an era, the essence of a place or of a culture whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimise an image in terms of finetuning of levels and colours is allowed as long as the image looks natural. The same applies for removal of dust or digital noise.

Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted.

Fees may either be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the salon organizer or the judges is final.

organizer’s evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry and declined. Such entries may be referred to FIP for further investigation of possible ethics violations.

FIP retains the right to investigate in any way all complaints/suspensions of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the FIP rules, include the entrant’s name on the list of sanctions provided to salons, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering this salon and agree to cooperate with any investigation.
